1975

A modern design with a Scandinavian flavour, the Mayfair 15 looks fantastic outside and really delivers the good inside too! With its stylish facade design, large windows and optional decking area that gives you a delightful spot to enjoy a morning coffee and wake up with the sunshine.

The inside of the home doesn't disappoint either! At the heart of this home is a spacious open plan area, consisting of the living and dining space, along with a kitchen with island and its very own walk-in pantry, making it a dream for all aspiring chefs. On one side of the home, you'll find a bathroom featuring a bath and shower as well as a laundry room to help keep your utilities tucked away.

There's also a large bedroom with double built in robes offering plenty of storage, while the windows allow in lots of natural light. On the opposite side of the home is another bedroom, again featuring built in robes, and with a linen closet just outside you'll have all the room you need to store laundry!

This contemporary home is simple yet delivers a lot, making it perfect for those who are after a spacious but low maintenance home.
